ADDITIONAL INFO

Your Custom Orthodontic Laboratory

NorthStar is a full-service custom orthodontic lab and has many additional design options not appearing on this price list. If you would like to place an order for a custom appliance not appearing on our price list, please contact a member of our Clinician Support team to receive a personal consultation and pricing information.

100% Unconditional Repair/Remake Warranty

NorthStar offers a 100% 'no questions asked' repair/remake warranty on appliances for 30 days from the original date of invoice.

Please Note:

- This is a repair/remake warranty, not an offer of credit.
- Does not apply to design changes.
- Does not apply to aligners or other appliances with digitally reset teeth.

Limited Warranty

NorthStar warrants that its appliances are free from errors in workmanship for 120 days from the original date of invoice. NorthStar will repair or remake (at our discretion) any product that fails to meet our production standards.

Please Note:

- Does not apply to clinical non-fit due to dentition change
- Does not apply to model distortion
- Does not apply to breakage from improper handling.

To Submit a Warranty Claim

Please submit all of the following elements:

- Original appliance
- Original working model
- A new working model
- A full description of the points that did not meet expectations.

Please return all required materials in one shipment. Separate shipments will incur additional handling fees.

Account Creation

Your account is activated when NorthStar receives your first prescribed case for fabrication. At that time, you can expect a phone call to clarify the following:

- Account contact details
- Shipping preferences
- Fabrication preference files
- Special requests
- Billing information & Acknowledgement of Financial Responsibility

Please note:

If we are unable to reach the prescribing doctor to receive production preferences within 2 business days of receipt of your first case, your order will be placed into production and made according to NorthStar's standard design for that appliance. You may contact us to update or review your preferences at your convenience.

MyNorthStar Web Portal

NorthStar is pleased to offer you access to all of your account information online, including the ability to view case statuses and make payments. Contact Customer Service today to access your MyNorthStar!

Case Submission

NorthStar provides specialized prescription sheets for all categories of appliances. These may be obtained in bulk and customized with your name and account information by contacting Customer Service. You may also download all prescriptions from our website. Shipping boxes, packaging foam, and prepaid shipping labels are available upon request. If multiple shipments are necessary to submit your required case materials, additional handling fees will apply.

Additional Fees

NorthStar's handling fee is applied to every label used for inbound shipment (including shipments of additional case materials, or labels used to submit warranty claims that are not NS error). Bundling to include more cases per shipment results in greater savings for your office. NorthStar also charges a case cancellation fee. If you need to cancel a case, a fee will apply. There is an additional fee if case materials must be returned. We are unable to cancel cases that have been in the production phase for 3 days or longer.

Billing

All new accounts receive an initial \$500 line of credit. Upon submission of a completed Acknowledgment of Financial Responsibility form, the credit line is increased to \$5000. Statements are sent electronically or on paper as requested. NorthStar generates monthly statements on or before the third day of each month. Statements include all patient names and related invoice charges for that month. Call NorthStar to set up a billing account if your payments will cover multiple practitioners or locations.

Payments

- Payments are due by the first day of the month following the statement date. Past due accounts may be subject to credit holds on cases or COD shipments. A non-refundable service charge of 1.8% monthly applies to past due accounts.
- NorthStar accepts your business check, check-by-phone, MasterCard, Visa, American Express, Discover, and PayPal.
- NorthStar's AutoPay service provides you with convenience and an unlimited line of credit.* You will receive your monthly statement in the manner preferred and your secure credit card on file will be automatically charged for the current balance on the 10th day of each month. Call or visit our website to obtain an AutoPay Authorization Form for this service. **Unlimited line of credit applies as long as account remains current each month and in good standing.*

Privacy Policy

NorthStar may collect personally identifiable information such as your name, address, email and credit card numbers, etc. as voluntarily supplied by you, as our client, or one of your approved staff members. Providing this information to NorthStar gives us permission to use it only for business-related purposes. Your personally identifiable information is kept secure. Only authorized NorthStar employees have access to this information, and it will not be rented or sold to anyone.
